AREA OF EXPERTISE

Scott Rush brings real estate management, development and construction expertise to LCK's project management assignments. His engineering background combined with industrial and shopping center management and development experience complement his ability to effectively manage complex projects in an owner's representative role.

Scott is a skilled project manager with experience including commercial office, retail, residential and civil construction. He also has managed construction of retail power centers, big box retailers, multi-family, medical, commercial office and infrastructure construction.

His portfolio spans across the state, having performed projects in and around the Grand Strand and Midlands areas of South Carolina. Scott's past projects include shopping center development and construction, development of entertainment venues and parks, public works and commercial office assignments.
