AREA OF EXPERTISE

David joined LCK in 2013 and brings to the firm a unique perspective in business development and delivery of project management solutions. His depth of experience in the construction and development industries combined with a wide network of statewide and national business and governmental relationships are leveraged to broaden the reach of LCK's service offerings.

David's role is primarily relationship development as he seeks opportunities to assist corporations, municipalities, non-profits, and private investors alike through LCK's menu of services including project management, property assessments, consulting, facilities management, and inspection services.

BUSINESS AND EDUCATIONAL BACKGROUND

Prior to joining LCK, David was President and COO of Red Rock Developments, a Southeastern development firm. In addition, David formerly worked at Shelco Inc., a regional contractor, and at Bank of America. He has assisted such companies as Monster Worldwide, Caterpillar, Nucor, Lennox International, Verizon Wireless and Liberty Property Trust in various real estate and development services. David has broad experience in greenfield developments as a banker, contractor and developer. He has been active in the Industrial Asset Management Council (IAMC) serving on the programs committee.

COMMUNITY INVOLVEMENT

David's business career has been focused in South Carolina as has his involvement in local, regional and statewide initiatives. He was a board member of the Sumter Boys and Girls Club and the York County Economic Development Board. He has participated in Leadership Sumter and Leadership South Carolina. While in Greenville, David was among a group of eight business leaders that established the Upstate Alliance, a regional organization that promotes economic development. Today, the Upstate Alliance represents 10 counties in South Carolina. David also currently serves on the executive committee of the South Carolina Economic Developers Association and has been a board member for the last four years.
